PERSONAL STATEMENT

Skilled in several programming languages, including C and Scala, comfortable working on any operating system, and adept at working in a team. During my time at VUB as a Master's student, I developed a compiler from scratch for my Bachelor's thesis and worked on numerous projects that put our skills to the test. I love learning new skills and using them to the full.

SKILLS

- Experienced in many low level languages (C, Assembly x86, Prolog)
- Proficienced in many applications (Microsoft Office, Adobe Programs)
